MORE HOMESTEADS TO BE AVAILABLE IN THE NORTH

Some 6000 homesteads, or approximately 1,000,000 acres in the Grande Prairie district and in the Peace River Block in British Columbia will be thrown open for entry in the near future, according to word received at Grande Prairie recently from the Department of the Interior, Ottawa. This area includes land formerly held as forestry reserves lying between the sixth meridian and the B.C. boundary line and bounded on the north by the south line of Township 81 and on the south by the Wapiti River. An additional area will also be surveyed and thrown open to homesteading. It is expected that entry may be made for some of these lands about April 15th.

GOVERNOR GENERAL TO VISIT THE PROVINCE

His excellency Lord Willingdon, Governor General of Canada, accompanied by Lady Willingdon, will make a brief visit in Edmonton and Calgary during the coming week on his way to and from the International Convention of Education which he is to attend at Victoria, B.C.

AGRICULTURAL SCHOOLS CLOSE SUCCESSFUL TERM

After one of the most successful seasons since their inception, the four provincial schools of agriculture closed for the 1928-29 term during the past week. Premier Brownlee and Hon. R. G. Reid were the principal speakers at the closing exercises at the Vermillion School. Hon. George Hoadley spoke at the Olds school and Mr. H.A. Craig represented the government at the closing exercises at Claresholm and Raymond. The number of young men and women students in attendance at the schools during the past term has been as follows: Olds 238; Vermillion 175; Claresholm 78; and Raymond 64.

FIELD SERVICE MAN TO SPEAK HERE SATURDAY

Mr. Pattiser, Field Service man for the Carbon district, will address a public meeting in the Farmers Exchange hall next Saturday afternoon, April 6th, at 2.30 p.m. Everybody is Welcome.

"CIVIL SERVICE" TO BE PLAYED IN ACME TOMORROW NIGHT

The Carbon Thespians will stage the play "Civil Service" in the Acme Hardware hall tomorrow (Friday) Night, under the joint Auspices of the Acme and Carbon Elks Lodges. The play was staged in Carbon a second time last Thursday night, and although the weather was stormy, a good crowd was present and many who had seen the play before were there again for the attraction.

Over 1,000 teachers from all sections of the province are meeting in Edmonton during the coming week to attend the sessions of the 19th Annual Convention of the Alberta Educational Association. Speakers during the convention will include a number of outstanding authorities on Educational affairs.

A program of very successful agricultural short courses held at various points in the province has just been concluded by the Department of Agriculture. Four-day courses were held at Lethbridge, Hardisty, Sedgewick and Mundare, a three-day course at Manola, two-days at Innisfail and one-day meetings at High River and Vauxhall. At a number of these points as many as 150 farmers were in attendance. Instruction was given in field husbandry, weed control, live stock, poultry raising and farm power. This has been the most extensive short course program carried out by the Department of Agriculture for a number of years and the results are reported to be highly gratifying.

MILLIONS OF OUR BIRDS KILLED ANNUALLY BY GOPHER POISON

Spring is here, and all our little feathered friends are on the way to our northland. When we see them coming in flocks, with thousands of miles behind them, they are tired and hungry. We see them flying over the stubble to pick out a place for feeding. After a long days flying, they will devour weed seeds uncountable, but at the same time will pick up a few kernels of grain, which are waste from last year's crop. And as they are on the ground the birds think they are entitled to them, and so they are; but as gopher poison is put out on many farms in the broadcast fashion, many kernels of the poisoned grain are picked up by the birds, and millions of our innocent little feathered friends are killed every year by this poison.

We appeal to all our farmer friends not to put out poison in the broadcast fashion, but to place it well within the gopher holes, so our little songsters will escape that horrible death. If we only could know of the millions of seeds that are eaten every day, yes every hour, by them, we would do our best to protect our little feathered songsters, which try so hard to please us and cheer us up with their sweet little songs from daybreak until the last golden glimmer in the west is gone. So let us love and protect them and let them in return help cheer us up by their eating uncountable weed seeds. —J. Warneholdt, in The Hanna Herald.

RIDES THE RANGE IN AIRPLANE

George Ross, a well known southern Alberta rancher, has bought an interest in an airplane, which he intends to use to get around over the country to look after different herds. It is not expected that he will use it in "rounding up strays" or that kind of work. He was a flier during the war, but has not piloted a plane for several years, but he thinks he can make a comeback.

Miss Freda Ruff returned Monday from a short visit in Calgary.

Alex Davis of the Bank of Montreal staff at Hughenden, spent a couple of days in Carbon last week end. He motored back to that town on Sunday.

A light fall of snow came on Thursday evening last and a couple of days of cold weather was experienced, but old sol is out as warm as ever and the seeding operations will go ahead with out delay.

The dance held in the Farmers Exchange hall on Monday night did not prove as successful as it might have been, although a fair crowd was present and everyone seemed to enjoy themselves. The music was furnished by the local 4-piece orchestra and refreshments were served at midnight. The Curling Club will clear about \$20 on this event and this sum will be used to pay off some of the indebtedness of the Club.

Canada's Future

In a very fine address by Mr. Graham Spry, secretary of the Association of Canadian Clubs, and printed in "The Canadian Nation," the subject of Canadian unity is dealt with under the title "One Nation, Two Cultures," which was likewise the heading over the article appearing in this column last week. In fact, last week's article was inspired by Mr. Spry's address.

In his speech, Mr. Spry urged that, above all, the two Canadian races should be frank with each other, speak out their feelings freely and courteously, and attack that underlying menace, the fear, the suspicion which ignorance breeds; and "working for common national ends, working the same national institutions, and developing the same national estate, they will learn to know each other, to recognize each as a Canadian, to feel a sense, not of fear, but of partnership." Then he said:

"One nation, two cultures; one nationality, two races; one loyalty, two tongues, on this the Dominion of Canada is founded, on this the partnership rests by solemn contract, by mutual trust. And thus it must abide or perish. Let it abide, and the nation will grow greater, and the world richer; that two races, full of spirit, rich in the heritage that time endows, a tongue, a culture, each their own and shared at times in common, may live in amity as one, secure, serene, partners in the development of the noble estate to which we are fortunate successors. Let it fail, let race seek to dominate race, let prejudice take its rein and ride rough shod through the fine bonds that unite us and Confederation shall perish, and the peoples of Canada be thrust towards a future, dark and impenetrable."

Looking back over the sixty-odd years of Confederation, can any one imagine what the position of the present Dominion of Canada would be had the Canadian people of both races in 1867 not agreed to sink their differences and agree upon compromise policies and enter into a solemn compact with each other, both for the present and the future. Had such agreement not been reached there would have been no Confederation. Had there been no Confederation what would in all likelihood be the position and status of British North America today?

Would it be British? It is extremely doubtful. Long ere this it is highly probable that large sections of what is now Canada would have become merged in the United States. Certain it is that failing Confederation, the isolated Crown colonies would have remained weak, undeveloped. Instead, we have a great and prosperous Dominion, rapidly forging to the front as one of the great nations of the world, a tower of strength to the Empire, and already exerting no mean influence in the councils of the nations. The union effected by the solemn guarantees of the act of Confederation was not alone the creation of the Dominion; it was the salvation of the country at large.

Not only must the letter of that contract be lived up to, but the spirit must be observed. Failure on the part of the Canadian people, whether of British or French extraction, to recognize both the letter and the spirit of the union effected by Confederation will be fatal to its existence. And if Confederation fails, what are we to put in its place? Confederation is weakened by sniping tactics on the part of one race against the other, and if Confederation is weakened it may perish. On the other hand, cordial acceptance of the spirit of the Confederation pact, which we all laud annually on Dominion Day, will add strength to the structure, and enable a united Canadian people to resist all attacks upon their sovereignty and develop in peace their great heritage.

As Mr. Graham Spry truly states, any other future for Canada but that bound up in full acceptance of terms and spirit of the Confederation pact is indeed dark and impenetrable.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of Influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerviline. Half a teaspoonful of Nerviline in water makes a most efficient gargle. The germ-killing properties of Nerviline quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerviline. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerviline and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Utilizing Waste Product

Hot Water From Pueblo Factories Cleans Ice From Streets

Hot water as a waste product from ice plants and other factories of Pueblo, is being used by the city highway department to remove snow and ice from the highways. Street sprinklers and flushers are filled with the hot water and driven to the downtown streets. With one sprinkler following another, both directing streams of hot water onto the pavement, snow and ice melt immediately and are drained away. The hot water, obtained free, saves the city large amounts usually spent shoveling and hauling snow off the streets.

NEW BABY DISTURBS TIRED OFFICE WORKER

"When my old boy was just a few weeks old he was badly constipated from my milk," says a Nebraska mother. "He kept us awake so much, my husband almost slept over his desk at the office. Then my doctor got us to give baby some Castoria and the next day he was much better. His stomach and bowels began acting perfectly, and he gave us no more trouble." Avoid imitations of Castoria. The Fletcher signature marks the genuine, purely-vegetable, harmless Castoria, doctors everywhere advise for those ill of babies and children, such as colic, constipation, colds, biliousness, etc.

Development Of Sheep Industry

Alberta Shipped 10,000 Head To B.C. Last Fall

The sheep industry from a ranching point of view shows signs of development in Western Canada, particularly in British Columbia, says A. A. Macmillan, chief of the Dominion Livestock Branch. Last fall upwards of 10,000 head of ewe stock were bought in Alberta and shipped to the interior points of British Columbia, he pointed out.

PAINS IN THE BACK

These Are Usually Due To a Weakened Condition Of the Blood

The muscles of the back are constantly under heavy strain, and have but little rest throughout the day. They are therefore in need of all the nourishment and strength that plenty of pure red blood can give them. Unless they have this help, you will have backache and continue to have it.

Backache seldom or never means kidney trouble. It is nothing more than the tired, worn-out muscles of the back showing their exhaustion because of the lack of good, pure blood. The one generally recognized efficient blood builder is Dr. Williams' Pink Pills. When the blood has been improved through the use of this medicine backache disappears. Mrs. F. Fairbairn, Essex, Ont., tells what Dr. Williams' Pink Pills did for her in a case of this kind. She says: "I suffered for nearly three years with a weak back. At times the pains were so bad that I had to walk half doubled over. I had tried several doctors with very little benefit. A friend urged me to try Dr. Williams' Pink Pills. I did so, and oh, the joy of once more being able to stand up straight without suffering intense pain. After using two boxes there was no doubt they were helping me. I used eight boxes in all and have not since had a sign of the trouble. I can do all my housework and not feel tired and worn-out as formerly. For all this I thank Dr. Williams' Pink Pills."

If your dealer does not keep these pills you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Prisoner For Eight Years

Russian Boy Punished By Father For Joining Red Army

A story of an eight-year imprisonment of a boy by his father in a pit near their hut in the village of Savchukovo, Kursk province, has been brought to Moscow. In 1918 young Tarasoff joined the Red Army and three years later returned to his native village filled with enthusiasm for the new order. His reactionary father told him "the red army marches against the Czars and you must not serve its ranks."

According to the report, that night old Tarasoff dug a deep cave in his garden and binding his son hand and foot threw him into the pit apparently to keep him there until the return of the old order. Recently the father died and the villagers, chancing upon the living grave, extricated the worn and wrinkled man who although only 29 years of age had snow white hair. He was said to have been placed in a hospital.

Competes With Canada

Forty or fifty years ago, Denmark was a grain producing country. Then the Western Canadian prairies began to export grain cheaper than Denmark could grow it, and so she turned to dairy farming and its natural complement hog raising. Now she competes with Western Canada in selling bacon to England.

Up to well into 19th century, in England, forgery was punishable with death.

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use them. Then compare results. Note the absence of that re-dyed look; of streaking, or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

MARSHAL FOCH IS BURIED WITH IMPRESSIVE RITES

Paris.—Marshal Foch was laid to rest near the tomb of Napoleon. More than a million heads bowed as the great soldier was borne on a gun carriage from the stately gothic nave of Notre Dame Cathedral to the simple and severe chapel of the Invalides.

Church and State, separated in France for more than twenty years, united for the day to provide the devout Christian soldier with a national funeral unparalleled in pomp and magnificence. The world has seldom seen its like before and it is not probable that such a show of solemn splendor will be repeated in this age.

The Republic of France and the Church of Rome were joined by ten nations whose armies Foch commanded in the greatest of wars in heaping honors upon the bier of the modest master of ten million warriors.

Most of the civilized world was represented at the church funeral ceremony, and in the cortege that moved with military pomp and precision through the streets and squares of Paris from Notre Dame to the golden dome of the Invalides.

The great outpouring of people who watched the funeral procession provided the crowning stone of the great edifice of honor and love which a grateful nation and friendly peoples of other lands have steadily built to the greater glory of Foch's name since the day he was chosen from all military commanders of the Allies to lead 10,000,000 fighting men under 10 flags.

Premier Poincare, who was president of France during the war, said in his brief funeral address that Foch had had no other ambition than to serve, and had wished no other recompense than the assurance of having accomplished his duty.

Wants Records Corrected

American Soldier Reported "Killed In Action" Asks To Be Declared Alive

Santa Rosa, Cal.—Thomas R. Smith, of this city, reported "killed in action" during the World War, is very much alive and has appealed to the American Legion in an effort to have himself declared so.

For 10 years the government has been insisting that Smith's sister, Mrs. Nellie Johnson of this city, accept \$10,000 in war risk insurance for her brother's "death."

Mrs. Johnson and her brother both steadfastly refuse to admit he is "dead," and now Smith has asked the American Legion to aid in straightening out the records at Washington.

Appointed Poultry Promoter

Regina, Sask.—Appointment of W. H. McLellan, Saskatoon, as provincial poultry promoter, effective May 1, was announced by Hon. C. M. Hamilton, minister of agriculture. Mr. Hamilton said the appointment was made on the recommendation of the Saskatchewan Poultry Breeders' Association, in recognition of the growing importance of the industry in the province.

Chinese Law Courts Busy With Divorces

Number Of Cases Greatly Increased Under Nationalist Rule

Shanghai.—Divorce has come to China to stay. With the National Government more firmly entrenched and the women of the country quickly seizing their newly found freedom, the Chinese law courts daily are handling an increasing number of divorce actions.

Last year a record was set in Shanghai courts with a total of more than 1,400 divorces, a gain of more than 800 over 1927. In 1923, before the establishment of Nationalists rule in Shanghai, divorces failed to reach the hundred mark.

Survey of the 1928 divorces based on statistics compiled by the United Press, reveals that spring and summer are the "big" seasons, with fall and winter trailing quite a distance behind.

More than 60 per cent. of 1928's divorces were filed between May 1 and September 30, the remaining 40 per cent. in the other seven months of last year. December wound up the year with 75 cases, just a little more than 5 per cent. of the year's total.

Disastrous Prairie Fire

Large Strip Of Country Swept Bare By Flames

Regina.—A prairie fire started northwest of Nedeauville, Sask., destroyed thousands of acres of pasture, the buildings on three farms and was responsible for a man being sent to the hospital at Medicine Hat, where his wounds, though serious, are not thought to be fatal.

A strip of country about ten miles wide and twenty-five miles long was swept bare. At its closest to the main line of the C.P.R., it was ten miles away, north of Tompkins.

George Campbell lost his barn and outbuildings but managed to save his stock, some of this being singed when running through the fire. His loss is estimated at \$1,000.

John Fisher and family were driven from their home, which was destroyed by the flames, and are staying with neighbors. Mr. Fisher also lost all his buildings and feed for spring work on the farm. His loss is placed at \$1,500.

Fred Robinson, by plowing a fire-guard around his buildings saved these, but lost all his feed, valued at \$300.

Frankfort-On-the-Main, Germany.—For what is believed to be the first time in history, the advertising columns in a daily newspaper were invoked to secure passengers on a long airship pleasure cruise.

The Frankfurter Zeitung carried the following advertisement, inserted by the Hamburg-American line Berlin Travel Bureau:

"The second Zeppelin cruise, to the Mediterranean and the Orient, will start about April 15 from Friedrichshafen. Passage per person 3,000 marks (about \$750).

'Zeppelin cruise to America about May 10. Passage from Friedrichshafen per person, \$2,000.

To Study Tourist Traffic

New Subject Taken Up At German Academy Of Commerce

Berlin.—Scientific research of tourist traffic, including particularly a study of its causes and its social, political and economics effects, has been added to the curriculum of the Academy of Commerce of Berlin. Transportation methods, hotel management and the work of expositions and fairs will also be studied, while special courses will be arranged for directors and managers of hotels, spas, fairs and so forth. A library dealing with the subject is to be assembled by the academy.

Train Crew Arrested

Responsible For Wreck At Drocourt According To Coroner's Finding

Parry Sound, Ont.—Responsibility for the wreck of two Canadian National trains at Drocourt with a death toll of at least fourteen was placed on the crew of the northbound train No. 3 in the written verdict of Special Coroner J. B. Broughton.

Criminal proceedings were at once instituted against the three surviving members of the crew and charges of manslaughter were laid against Engineer J. V. Alexander, Fireman E. Riley and Rear End Brakeman Charles Gorrie.

The arrest of the three trainmen followed the verdict of the coroner's inquest on the death of Horace Smith, one of the victims of the wreck. According to the verdict the collision of the two fast trains was "due to the neglect of the crew of Train No. 3 in running past the meeting place at which they had orders to stop."

It is expected the three accused trainmen will appear for trial at the spring assizes, which open here May 14.

Scientific Fox Breeding

Munich, Bavaria.—Breeding of silver foxes on a "high-brow" scale is being undertaken by eight university professors of Tankenrain, Bavaria. The farm which they have established with eight pairs of foxes as a nucleus will be conducted wholly on scientific principles. Eventually the learned men hope also to breed other fur bearing animals.

Radio Commission Making Western Trip

Will Investigate Domestic Conditions In the Broadcasting Field

Ottawa.—The royal commission on radio broadcasting headed by Sir John Aird of Toronto, will leave for Western Canada on April 5, to inaugurate its program of hearings into domestic conditions in the radio broadcasting field.

The commission will proceed direct to Vancouver, where the members will attend some of the sessions of the National Council of Education, which has placed on the convention agenda several papers relating to the radio question. A debate will also be held on the subject: "A national policy or exploitation of the radio." Hearings will be held in Vancouver and Victoria.

Public sittings will be held later in Edmonton, Calgary, Saskatoon, Regina, Moose Jaw, Brandon, Winnipeg, Port Arthur and Fort William, followed by a tour of Ontario, Quebec Maritime provinces and a visit to a number of centres in the United States.

The final report of the commission is expected to be submitted to the government before Parliament prorogues.

Thousands Helped Last Year Under Empire Settlement Act

London.—Answering questions in the House of Commons Right Hon. L. C. Amery, secretary for the Dominions, stated that during 1928, 27,523 persons proceeded to British North America with financial assistance under the Empire Settlement Act. This compared with 20,619 to Australia and 2,175 to New Zealand. Information was not available regarding the number of assisted migrants who returned to the United Kingdom in the same period, he said.

Counsel For Alberta

Edmonton.—S. B. Woods, K.C., has been retained as counsel for the Alberta government in the British Columbia appeal to the Canada Privy Council against the grain rates decision of the railway commission. Both Alberta and Saskatchewan are supporting the coast province in this action, and Mr. Woods will represent this province when the case comes up at Ottawa. No date for the hearing has yet been announced.

GIANT GERMAN OCEAN LINER IS PREY OF FLAMES

Hamburg, Germany.—The mysterious fire which virtually destroyed the new North German Lloyd liner Europa, was expected to have an important effect on the North Atlantic traffic war.

The Europa, a 46,000-ton vessel, was being built for five-day service with the Bremen between New York and the English Channel, and was considered a challenge to the Cunard White Star and Hamburg American lines.

The ship caught fire while only a few workmen were aboard her. She was scheduled to make her maiden voyage in July and construction was nearing completion when the fire broke out suddenly.

Cause of the fire probably never will be known, it was said, since it started in four places simultaneously deep in the hold. Experts did not believe it was arson, however.

The vessel was insured for 40,000,000 marks (about \$9,500,000) but the loss was estimated at about 50,000,000 marks (about \$11,800,000). Shipyard engineers claimed later, however, that the damage was not that large.

Although the ship was not a total loss several experts said it would be useless to rebuild it. The North German Lloyd Company was expected to refuse to accept it from the builders, Blohm and Voss.

The fire was spectacular. Starting before dawn, it was not brought under control until 3 p.m. The boilers, machinery, hull and lower decks escaped the fire.

None of the few workmen aboard when the fire started were injured, but a fireman was overcome. Eight hundred men were thrown out of work by the fire.

Planning Survey Of Pacific Great Eastern

B.C. Seeking Services Of Alberta's Deputy Minister Of Railways

Victoria.—J. Callaghan, deputy minister of railways and telephones for the province of Alberta, has been in conference with Premier S. F. Tolmie and cabinet ministers in connection with the proposed survey of the Pacific Great Eastern Railway, it was learned. The services of Mr. Callaghan, while the survey is being made, is sought by the government, as he was connected with the P.G.E. work when the line was first laid.

Premier Holme stated that as yet it has not been decided whether the services of Mr. Callaghan could be obtained.

Lightning Strikes Peace Tower

Electric Storm At Ottawa Turned Day Into Night

Ottawa.—Batteries of a recent severe electric storm centred their bombardment upon Parliament Hill and lightning playing directly over the buildings, struck the Peace Tower and caused the mighty pile of granite to shudder with the shock.

Lightning conductors prevented any serious damage. Only the tower elevator was put out of order. A second blinding flash struck at the southeast corner of the centre block, just above the rooms of the press correspondent, causing some consternation. There was no damage here, however.

The storm made the day as dark as night.

For Winter Fair Building

Saskatoon Sask.—The provincial government is prepared to contribute one-third of the cost of a \$100,000 winter fair building at the exhibition grounds here on condition that the city of Saskatoon and the federal government donate like amounts. Charles Agar, M.L.A. for Saskatoon County made this announcement recently. Mr. Agar says it is practically assured that the federal government will contribute and almost certain the city would.

THE HOME TOWN

One can scarcely visit any small
town without hearing someone make
the following or similar remark:
"This is the dearest hole on earth.
There is simply nothing doing in this
town. I am dying to move to the
city."

Such people want to be amused
every minute of every day and most
of the night in order that they may
not have time to reflect on the empty
dry husks of their own lives. If ever
they find themselves for a moment
enamored they see their town as their
own lives are empty and lifeless. On
the other hand our town may be a
little below its possibilities and it
may not be the life of the city that
is causing the trouble.

A man on visiting a city asylum
said to one of the guards "Are you
not in danger? What is it to hinder
these many insane people from get-
ting together and locking you few
guards up?" The guard replied: "If
these people were wise enough to get
together they would not be in this
city under guards, but they would be
in their homes in the country un-
guarded." Is there not a home town
anywhere that has not some time
suffered from a lack of getting to-

gether? Social activities, educational
interests and religion, the very things
that should unite people too often be-
come walls of separation.

When this is the case, the home
town becomes unattractive. The
young people leave. The older people
live most monotonous lives. Many go
to the cities to jostle with the alto-
gether too many strap hangers that
are already there. Ninety and nine
out of every hundred of these bril-
liant young folk, with abilities capa-
ble of greatness, when once in the
city become lost. Often they become
costly liabilities.

This year let us strive to make the
home town; playground, school and
church more attractive and more in-
teresting. No home town can afford
to spend years in raising crop after
crop of young lives for the city to
devour and destroy. That is the very
poorest kind of business, all going
out and nothing coming in. No one
gaining in anything. The world is
becoming poorer in life and richer in
misery.

Alberta is great. Overcrowded
cities are never marks of greatness
in and sense. Alberta's greatness
must ever be found among the people
who live in her innumerable beautiful
rural homes, and in her character and
quality of her countless home towns.

When the prodigal came to himself,
he thought of what he had left in his
home town. Whenever one will stop
chasing fraudulent wealth, giddy
amusement and empty power long
enough to think, one's thoughts will
always come home with a vision of
the greatness of life's opportunities,
tasks and pleasures that are found at
home. The greatest things that God
can possibly offer us this year are
right at home. Here our tasks. Here
our material. Here our joy. If we
realize this in 1929 our home town
will be one grand happy place through-
out the year—Exchange.

The enterprising minister of Knox
Church, Rev. A.E. Hayes, has been
publishing a weekly calendar this last
while. The calendar is in two colors
and in a dignified way keeps the peo-
ple in touch with church affairs. The
last issue gave the estimated expen-
ses for carrying on the work for the
year 1929, besides announcing the
Easter services for this Sunday. From

a printer's point of view the Pioneer
would like to offer congratulations.
The Church that advertises and
adopts modern business methods is
on the highway to attract people.

NO WONDER !!

A man was one day visiting a lunatic asylum and while walking in the grounds he met a patient to whom he said:

"Well, how did you get here?"

The man replied: "Well, sir, you see I married a widow with a grown-up daughter, and then my father married my wife's daughter, that made my wife the mother-in-law of her father-in-law, and my father became my step-son. Then my step-mother the daughter of my wife, had a son, and that boy, of course, was my brother, because he was my father's son; but he also was my wife's step-son, and therefore her grand-son, and that made me the grandfather of my step brother. Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

A Meatless Luncheon

The following tested recipes solve the problem of a tasty luncheon without meat:

Tomato Chowder

- 2 cupfuls Borden's St. Charles Milk.
- 1 pint hot water.
- 2 1/2 cupfuls canned tomatoes.
- 1 medium sized onion sliced thin.
- 1 tablespoonful butter or butter substitute.
- 4 tablespoonfuls flour.
- 2 teaspoonfuls sugar.
- 3 teaspoonfuls salt.
- 1/4 teaspoonful pepper.
- 1/4 teaspoonful soda.
- 6 water crackers split.

Melt the butter in the top part of the double boiler, add the onion, and cook it gently till yellowed, about five to eight minutes. Pour in the milk and water, set over the lower part of the double boiler and scald. Mix the flour, salt and pepper with enough cold water to make a smooth cream; stir it into the milk, and cook about fifteen minutes, stirring occasionally. Heat the tomato with the sugar; when boiling, add the soda and combine it with the thickened milk. For serving, put a split cracker which has been dipped in warm water, in each plate.

SUNDAY SCHOOL LESSON—APRIL 7

THE MINISTRY OF ISAIAH

Golden Text: "Then I said, Here am I; send me."—Isaiah 6.8.
Lesson: Isaiah 6:1-13; 7:1-17; 20:1-6; 38:1-22.
Devotional Reading: Psalm 116:12-19.

Explanations and Comments

Isaiah's Heavenly Vision, 6:1-4.—In the year that King Uzziah died, I saw the Lord sitting upon a throne, high and lifted up; thus the prophet Isaiah begins his account of his vision and call to service. "This is more than a date; this is an experience!" exclaims Dr. C. R. Brown. Isaiah had a vision, a dream, in which God was vividly real to him.

"Isaiah saw God. Do men see Him today? Was He any nearer to Jerusalem than He is to London or New York? Did that old Hebrew possess faculties different from ours? Can we see and know God? What do we mean by seeing and knowing God? A spirit cannot be seen with physical eyes. We mean that we are so convinced of the reality of God that our thinking and living are determined by that conviction; so sure of Him that we live as if we saw Him by physical sight."—Amory H. Bradford.

"The conception of Isaiah's vision is singularly pure and lofty. It is a worshipper's thoughts when he draws near to God. The vision is but the service in the temple transfigured. The prophet fell into a trance while holding the service and musing on its meaning. Suddenly the house and service and the ministers became transfigured; the walls went apart, and the roof lifted itself up till it seemed the high dome of God's palace on high under which he stood, and the Lord the King sat upon His throne receiving the adoration of all holy beings."—A. B. Davidson. And His train filled the temple. There was

"No face; only the sight Of a sweeping garment vast and white With a heaven that I could recognize."—Browning.

"The king was dead, but God was alive. Who shall say that it was not something of the same strength of faith that came to James A. Garfield, when, speaking to a discouraged multitude in New York after the assassination of Lincoln, he exclaimed, 'God reigns; and the government of Washington still stands.'—J. T. McFarland.

There is a rule in India that a younger daughter may not marry before the elder. Outstanding Authorities

on Farming and Live Stock Offer You Practical Information and Advice Based on Many Years of Successful Experience

The greatest array of practical, useable ideas for the Canadian Farmer ever gotten together in one book and it is

FREE

This book is offered as a contribution to the development of farming and live stock breeding in Canada. A group of outstanding farmers and agricultural authorities have put into writing the methods and findings which in years of experience, have proved most successful.

The practical experiences of these men have been compiled for Imperial Oil Limited, by the Hon. Duncan Marshall, former Minister of Agriculture for Alberta, and put into the book "Field and Farm Yard" which is a veritable storehouse of information and advice based upon actual and successful farm operation.

This book is offered to you free by Imperial Oil Limited. "Field and Farm Yard" has been written by specialists in farming and stock breeding. There are articles on feeding beef steers and dairy cows, written by Thos. McMillan, M.P. and S. G. Carlyle, Alberta Live Stock Commissioner. Selecting sires for herds, flocks, and studs is discussed in each breed by men competent in this business, among them being W. A. Dryden, Col. Bartley Bull, Col. Robert McEwen, W. L. Carlyle and R. A. Wright. Grain farming is treated by Dr. C. E. Saunders, producer of Marquis Wheat. All recommendations are based on the practical experience of farmers who are now using them to increase their incomes.

In the introduction which Hon. W. R. Motherwell, Federal Minister of Agriculture, has personally contributed to this book he writes in part: "The information is of such a useful character and covers such a wide field in agriculture that the book cannot fail to be of interest and value to any and every farmer into whose hands it may fall."

"Field and Farm Yard" is handsomely illustrated. Among its many illustrations are pictures of Canadian prize-winners and champions in different breeds of live stock. These in themselves are of special interest. You will find the book intensely interesting at first reading and the longer you have it and the more you use it, the more you will value it as a handy reference.

Fill in the coupon and write for your copy of "Field and Farm Yard" now.

Hon. Duncan Marshall
Former Minister of Agriculture for Alberta

Among the many contributors to "Field and Farm Yard":
Dr. C. E. Saunders, formerly Dominion Cerealist and producer of "Marquis" Wheat; W. A. Dryden, Chairman National Livestock Records Board, etc.; George B. Rothwell, Dominion Animal Husbandman, Experimental Farms; and many others.

CHAPTER XVI.—Continued

"Oh yes," he replied absently.
"You were gone for some time this morning she stated."
"Yes," he concurred, "I went up to bring Connie."

"Oh!"
Janet's fine eyebrows lifted slightly, and she looked at Donald with a curious intentness. "Why didn't she come?"

"She wasn't home."

Her woman's intuition long ago had told her that the "woodsprite"—as Donald called Connie—was madly in love with him. As she looked at him now and noticed his pre-occupied air, a pang of jealousy shot through her heart like an arrow. Was it possible that he had begun to realize that the wild girl of the woods was not a child, and that a love for her had been kindled in his heart? The thought made her feel faint and she tried to put it from her mind.

Lunch was finished now and they were walking back to the lake. Douglas invited the party to take a trip around the lake in a motor-boat, to which they assented gleefully.

Janet hesitated as Donald turned away with Wainwright. "Aren't you coming Mr. McLean?" she called.

Donald turned and shook his head. "I may be needed here," he said briefly.

Janet flushed to the roots of her dark hair and bit her lip in anger. She was not used to being thwarted in her desires.

Donald and Wainwright seated themselves on a bench under the wil-

lows and lighted cigarettes. Donald was ill at ease. The sound of Connie's tragic sobbing was ringing in his ears. He could see her little figure writhing on the ground in a tempest of grief that had torn at his heart-strings. He sprang involuntarily to his feet and began pacing the ground with quick, nervous strides. Wainwright glanced up at him interrogatively.

"You seem worried," he volunteered.

"I am," Donald admitted briefly.

Donald was in a welter of indecision. How should he broach this delicate subject? Although poor as he the proverbial church-mouse, Connie's father had the pride of Lucifer. There was natural dignity in his bearing, a certain aloofness in his manner, that in no way interfered with his unflinching courtesy, but had always precluded exchange of intimacies. He had resided in this wilderness for many years, but none could say that they had any more knowledge of his affairs at this moment than on the day of his arrival.

Donald decided to take the plunge. He sat down on the bench beside Connie's father and related the scene he had witnessed that morning—of Connie's preening before the mirror with the magazine page pinned to the logs; of the struggle with her hair; of the flour sack, and of the piteous sobbing of the heart-broken child.

Wainwright's face flushed painfully. There was a look of poignant suffering in his grave eyes. Of all the races in the world, the English—especially of the better class—fight most stoically to hide their distress.

Wainwright leaned forward, his throat working convulsively as he struggled to regain composure.

"I hope you do not consider me presumptuous," said Donald, a note of anxiety in his tone.

Wainwright's hand reached forth to clasp Donald's firmly. "No, I do not doubt your sincerity. An inordinate sense of pride has kept me in my present circumstances. This circumstance you have related has brought me to a realization that it is a selfish pride, as it has denied Connie the privileges to which she is entitled. There is nothing I can say," he went on in bitter self-condemnation, "that can even partially condone or palliate my stupidity. I should have known that she would require proper clothing now that she is grown up. As a matter of fact," he paused, his distress acute—"my finances are at a low ebb."

"How old is Connie?" asked Donald, hoping to relieve Wainwright's embarrassment.

"Nineteen."

Donald's head came up with a jerk. "What!" he almost shouted.

"She is nineteen," Wainwright reiterated, a peculiar expression in his eyes as he noticed Donald's bewilderment.

"Nineteen!" Donald re-echoed, a bemused look on his face. "Great Scot! This is a surprise. I thought of Connie as being not more than fourteen or fifteen."

"Connie's healthful outdoor life has tended to keep her young, and her mode of dressing enhances the youthful effect," said her father as he sat down wearily, a far-away look in his eyes. "Her mother," he went on softly, a tremor in his voice, "was just like her; at the age of twenty-five she looked almost a child." He turned to Donald. "No doubt you have wondered why I buried myself in this wilderness?"

Donald nodded. At this moment they were interrupted by members of the Sports Committee, who wanted Donald's advice on a matter pertaining to the afternoon's programme.

It was evident to Donald as he withdrew that Wainwright had been about to disclose his past history, a history which had been locked in his heart these many years.

At three o'clock the crowd began

drifting toward the race-course. The centre of the valley had been cleared of under-brush, and the long grass burned under the watchful eye of the fire-ranger. A small creek and a few swampy places had been "corduroyed" with cedar poles and then covered with soil. A judges' stand, with a few hastily erected seats for Janet's party, stood near the finishing point. The horse-race as has been said, was to be the feature event of the day. The crowd surged happily from the lake-shore to line up in orderly ranks about the oval.

The brilliant and diversified colours of the Klutchmen's skirts and head-gear showed in bright contrast to the drab wearing apparel of the white men. The Siwash Indians were dressed in nondescript clothing as to trousers and coat, but one and all wore wide-brimmed cowboy hats and displayed silk handkerchiefs of gorgeous hues, knotted at the throat to drape their shoulders carelessly.

Three husky farmers' sons from Pemberton rode to the starting-line amid hearty hand-clapping and shouting from their friends. A swarthy-skinned rider, mounted on a spirited black cayuse, came prancing through the crowd. He lifted his hat and smiled in acknowledgment of the plaudits of the spectators. This was Joe Lafonte, the half-breed who had won first prize at the Lillooet races for the past two seasons.

The wise ones averred that Paul John, of the Indian contingent, would give him a hard race. Paul John's cayuse was young, but the previous year he had run the half-breed's horse a close second. Money was being placed on all sides, particularly by the Indians, who are inveterate gamblers. Amid an excited babble in Chinook, nine Indian riders came laughing and shouting, with much waving of hats, to prance about and display their horsemanship before the admiring crowd.

Donald, with Andy, Gillis and Wainwright, stood leaning over the edge of the judges' stand watching the animated scene below.

At this moment there was an agitation at the far end of the oval, where the crowd opened to admit a horse and rider that came tearing down the course like the wind.

"Look!" Donald shouted excitedly as he seized Wainwright's arm. "It's Connie!"

Down the course, riding like a spirit of the woods, came the girl, her golden hair blowing about her face, sitting astride her mettlesome horse and riding as if the wilderness belonged to her alone.

Pegasus was not used to crowds. With arched neck and quivering flanks he reared on his hind-legs to

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

**SORREL
AND
SON**

At no time has there been prepared for the eyes of the world such a living glorious, stirring story of sincere love.

The love of a father for his son; a love that laughed at a world that called him a failure—a love that asked of life only one reward: "Make me a success as a father."

Could a mother do more for her daughter?

**ENGLISH COLONEL GAVE
CAPT. SORRELL M. C.**

There is very little war in Herbert Brenon's production of "Sorrell and Son," current film at the Carbon Theatre, but what there is was supervised by filmdom's leading authority on military scenes according to the director.

Lieut. Col. Geoffrey L. McDonnell, World War hero and technical expert during the filming of many pictures assisted Brenon on the few flashes of hostilities in "Sorrell and Son." Warwick Deering's novel of father and son devotion. McDonnell also plays the role of an English general in the war scenes.

Having served throughout the south African and World Wars, Col. McDonnell is one of the few bona fide survivors of the Canadian Princess Pats. During the World War he saw service in France, Belgium, Salonika, the Balkans and Siberia. Twice he was decorated for bravery in the field mentioned in despatches, given the thanks of the Secretary of State for War in the London Gazette and awarded the Czecho-Slovak war cross by special vote of the assembly.

He also served as technical advisor for Lillian Gish's "Annie Laurie."
